```
void createMapping(string &str)
{
    // find mapping
    char start = 'a';
    char mapping[300] = {0};
    for(auto ch : str)
    {
        if(mapping[ch] == 0)
        {
            mapping[ch] = start;
            start++;
        }
    }
}
```
